Performo™ iPad / iPhone

Asset and Maintenance Solution for the Mobile Worker

Simple. Simplicity drives productivity. Our #1 advantage is that users feel comfortable with our software. This results in your team getting their work done as quickly as possible.

Powerful. Our solutions are built for performance and scalability, with industry-standard technologies that reach out to your entire organization and work with your enterprise software systems.

Agile. We respect that every organization is unique. Our solutions can work off-the-shelf, or they can be easily tailored to your unique processes and workflows.
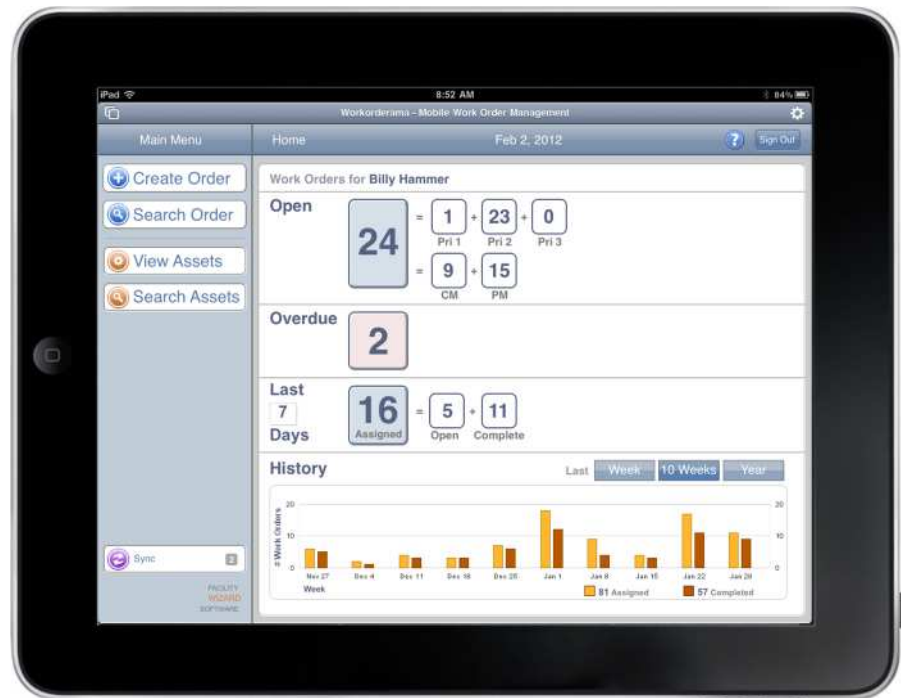

Performo™ iPad/iPhone worker interface is a complete software solution for the mobile worker.

Performo™ is an industry-unique software solution for the management of enterprise assets and associated maintenance activities.

Performo™ is focused on streamlining the dispatch and tracking of work orders, service requests, and preventive maintenance schedules.

Available solutions and interfaces include parts & inventory management, online work requests, plus mobile field workforce solutions to let your group deploy Performo™ as a complete CMMS software solution.

Features & Functionality

Flexible Deployment Options

On-Premise
Installed and deployed on your own servers, behind your firewall. Still supported 100% by your experienced Wizard Software professional services staff.

On-Demand
Secure access from anywhere 24x7x365 and superior performance in the Cloud with minimal to zero resources needed from your already tapped IT department. Your data is owned 100% by you.

Mobile Work and Asset Management

- ▸ Workers can view, complete and create work orders in the field
- ▸ Work order details include work notes, labor, parts, closeout checklists, asset specifications, supporting documents and milestone log
- ▸ Workers can view asset details including PM setup, work order history, specs, service contracts, documents, meter reading log and move data
- ▸ View work order or asset supporting documents in Word , Excel or PDF formats right on the iPad or iPhone device
- ▸ Capture work order closeout signatures in the field
- ▸ Live Performo data can be shared by iPad/iPhone and desktop users in real-time with the live connection mode
- ▸ The iPad/iPhone camera or Bluetooth wireless scanners can be used to scan bar codes in the field
- ▸ Two connectivity modes: Live connection or sync
